- 1 DIGITAL SKILLS
- 2 PEDAGOGICAL SKILLS PART 1
- 3 PEDAGOGICAL SKILLS PART 2
- 4 TIME MANAGEMENT
- 5 STRESS MANAGEMENT
- 6 COMMUNICATION

Contents

TEACHERS TRAINING PROGRAM

The EduCOV teacher training program combines theoretical concepts with practical exercises.

The exercises were created by pedagogical experts in the field, many of whom are also parents who had to deal with the difficulties of online and offline learning during the pandemic. Continuous feedback from teachers and parents is used to improve the training. The content has been upgraded and pilot testing has been completed.

The EduCOV training content comprises the following modules: Digital skills, Pedagogical skills 1, Pedagogical skills 2, Time management, Stress management and Communication.

Co-funded by the
Erasmus+ Programme
of the European Union

PARENTS TRAINING PROGRAM

"As a parent, what am I responsible for?"

We are flooded with information about how to parent "the right way" these days. It is all too easy to listen to advice from the media, relatives, and other parents. It's easy to become perplexed and begin to wonder if we're doing the right things for children. Nobody teaches you how to be a parent at the same time. The world is becoming increasingly fast. Our life roles are shifting faster and more powerfully. A question is raised.

Parents obviously play an important role in their children's lives. They are the pillars of love, support, and guidance. Life begins with family, and love never dies. Nothing is more soothing and comforting to a child, no matter how old they are.
